
Subject: AK HHC Workshop Presenters Mtg
Location: Teleconference

Start: Tue 10/13/2015 3:00 PM
End: Tue 10/13/2015 4:00 PM

Recurrence: (none)

Meeting Status: Accepted

Organizer: Tabor, Brock N (DEC)

Thanks for taking the time to meet with DEC and discuss the HHC Public Workshop presentations. Enclosed is the latest iteration of our agenda for the workshop for your consideration.

Teleconference Information: 2-3pm ALASKA (3-4 Pacific)

GCI Conference Line: 1-800-315-6338

Access Code: 51851

Host ID: 1025

Agenda:

1. Introduce purpose of HHC Public Workshop
2. Identify key points/areas of expertise speakers have to offer
3. EPA (Matt): National perspective on things. Key issues (2015 update, what's going on in other parts of the country and why)
4. EPA (Lon): Dietary surveys.
5. Idaho (Don): Process for developing Idaho's fish consumption survey and proposed rate. What is and is not controversial, relationship with tribal efforts
6. Washington: Process for determining exposure and RSC values. What is and is not controversial.
7. Address logistical concerns- length of presentation/handouts/presentation format/etc.

In a perfect world I would love to have a copy of your presentation by the 20th so we can limit overlap. That said, here's what I have to date- note that they are still draft but it should provide some context. Please note that our audience will consist of tribal representatives, NGO water quality staff, a handful of state permit writers, maybe a couple consultants, and a few industry reps. I've been as clear as I could be that SOME technical knowledge of WQS and the process used to develop them is a prerequisite for attendance but it is a public workshop nonetheless.

I realize that some of you may already have meetings scheduled and we may need to make alternate arrangements.

Thanks,

Brock Tabor
